

## What our clients say:

”

I have gained valuable insight from the Pedagogical Leadership course, particularly in defining what it means to be an effective leader.

This course has given me a deeper understanding of leadership and allowed me to articulate the difference better and more easily between the components of competent leadership and excellent leadership.

This course has challenged me to reflect and has provided me the tools to be able to not only transition myself from a competent to excellent leader, but more importantly to assist in providing that growth to the team members around me.
